OBJETIVE

I am looking for job opportunities in companies that allow me to continue improving my skills and demonstrate what I am capable of. My goal is to apply and expand these skills in a dynamic professional environment, where I can continue my professional growth, development and improvement on an ongoing basis. Likewise, I aspire for my job to allow me to pay for my studies to learn English and open the doors of the world to achieve my professional and personal ambitions.

IDIOMAS

- Spanish (native)
- English (basic)

ADDITIONAL INFORMATION

- Preference for remote work, but available to work in person and willing to move if necessary.
- Flexibility to adapt to any location, without particular preference for working exclusively in Argentina

KEVIN RUDY MÁRMOL

SOFTWARE DEVELOPMENT TECHNICIAN

PROFESSIONAL PROFILE

Graduated as a Higher Technician in Software Development at Blas Pascal University, specialized in PHP for backend, but I have also worked with languages such as Python and C# in .net, in addition to its different frameworks, adapting to client preferences, but to a lesser extent. He completed numerous successful projects that demonstrate my skill in this area. My web portfolio reflects my dedication and skills in PHP and other languages and technologies.

SKILLS

- **Web Development: :** HTML, CSS , JavaScript , SASS
- **Backend and Applications:** PHP (higher specialization), Python , C#
- **Databases:** MySQL (planning to learn MongoDB)
- **Frameworks: Laravel, Angular, Django, Flask**
- **Libraries: jQuery, React (under study), Node.js**
- **Computer Security: Audits, pentesting, ethical hacking**
- **Video Game Development: Unity (C#) as a hobby**
- **Tools: Visual Studio, Gulp, AJAX, Apache, Docker, GIT, Jira, Sony Vegas, Photoshop**
- **APIs: Experience with REST API**
- **UML, requirements analysis and software architectures**

EDUCATION

Blas Pascal University, Santa Rosa, La Pampa (2020-2023)
- Graduated with a GPA of 9.17

Extra-training on Udemy (2017-Present)
- My completion certificates can be seen in my web porfolio

WORK EXPERIENCE:

Online Freelance:
- I did a large amount of fullstack web development work for clients on remote work sites, ranging from conceptualization to full implementation, with excellent navigability, performance, SEO and good practices.
- I used a variety of technologies and languages, including PHP, C#, Python, JavaScript, HTML, CSS and SASS, as well as their different frameworks, mainly Laravel, and thus created personalized solutions according to the needs of each client, adapting to different environments and requirements.

In-person jobs in my location:
- **Project 1:** I developed a website for a school supply store and photocopier, based on my "Freelance Site" portfolio template.
- **Project 2:** I created a website for a wholesale distributor of refrigerated and sausages, with future plans to implement a virtual store with shopping cart and user registrations.

SOFT SKILLS

Communication — 80%	Dedication — 99%
Teamwork — 70%	Project Management — 90%
Creativity — 99%	Passionate Self-taught — 100%
